GOATS AND SHEEP- RUMINANTS

BILLY

Length - 1m

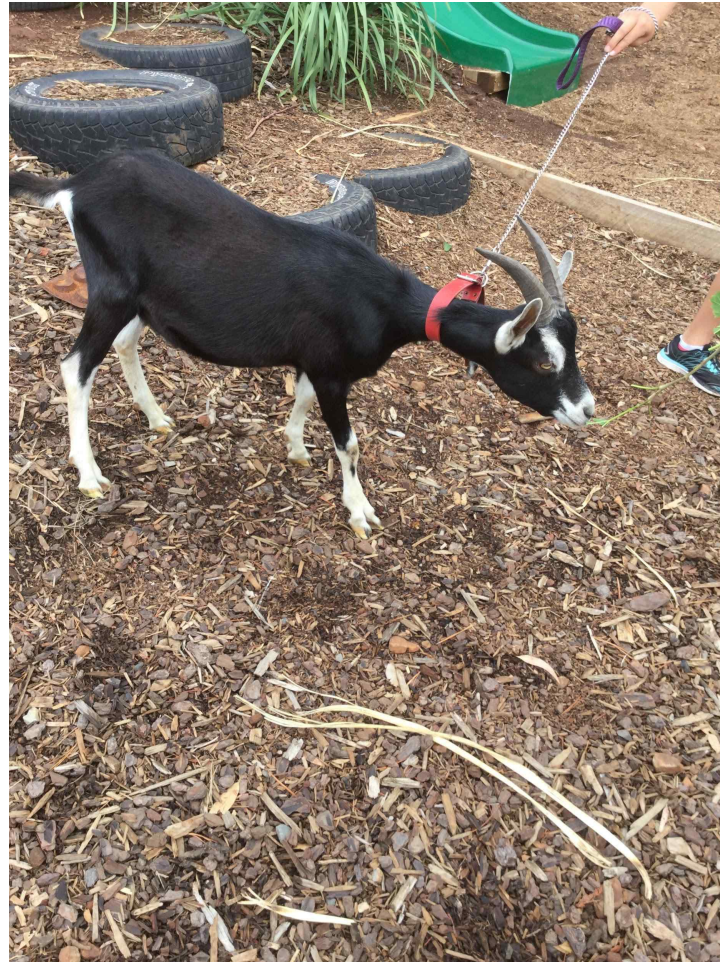

Colours - Black, Grey and White

Gender - Male

Diet - Grass/Weeds and Lucerne

Species - Goat or Capra aegagrus hircus

Family - Bovidae

PRANCER

Length - 1.10m

Colours - White

Gender - Female

Diet - Grass/Weeds and
Lucerne

Species - Goat or *Capra
aegagrus hircus*

Family - Bovidae

SNOW

Length - 1.5m

Colours - White

Gender - Female

Diet - Grass/Weeds and
Lucerne

Species - Goat or *Capra
aegagrus hircus*

Family - Bovidae

YOGURT

Length - 1.15m

Colours - White and Black

Gender - Female

Diet - Grass/Leaves and
Lucerne

Species - Sheep or *Ovis arie*

Family - Bovidae

SWIRL

Length - 1.10m

Colours - White

Gender - Female

Diet - Grass/Leaves and
Lucerne

Species - Sheep or *Ovis arie*

Family - Bovidae

HOW RUMINANTS HELP OUR GARDEN ECOSYSTEM

Sheep and goats are part of the cycle in our Garden. They eat the unwanted weeds and grass which cycles through their four stomachs. When it is transformed into manure, we can utilise it as fertiliser and spread it through our Garden to start the cycle again. Their manure is also used in the composting process.

CHICKENS

COOKIE

Length - 47cm

Colours - Brown

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

NUGGET

Length - 44cm

Colours - Brown

Gender - Female

Diet - Grass, Food Scraps and
Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

TURKEY

Length - 39cm

Colours - Black and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or Gallus
domesticus

Family - Phasianidae

PESKY

Length - 33cm

Colours - Black and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

NOODLE

Length - 35cm

Colours - Black and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

SHADOW

Length - 28cm

Colours - Black and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

POPCORN

Length - 44cm

Colours - Brown and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or Gallus
domesticus

Family - Phasianidae

ROSEMARY

Length - 30cm

Colours - White and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

TINKERBELL

Length - 26cm

Colours - Yellow and White

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

BIG BIRD

Length - 27cm

Colours - White and Red

Gender - Female

Diet - Grass, Food Scraps
and Feed

Species - Chicken or *Gallus
domesticus*

Family - Phasianidae

HOW CHICKENS HELP OUR GARDEN

Chickens are an essential part of our Garden's ecosystem. They eat the unwanted worms and bugs which helps us and keeps them healthy. We feed them food scraps that otherwise would have gone to waste so they have a diet that consists of more than chicken feed. They lay eggs which we sell to staff to help fund our Garden. Their manure can be used as fertiliser or in the composting process.

GUINEA PIGS AND RABBITS

ZIPPER

Length - 20cm

Colours - Orange, Black and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Guinea Pig or
Cavia porcellus

Family - Cavies

BADGER

Length - 23cm

Colours - Black and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Guinea Pig or
Cavia porcellus

Family - Cavies

MOHAWK

Length - 24cm

Colours - Black

Gender - Unspecified

Diet - Grass and Alpha Mix

Species - Guinea Pig or
Cavia porcellus

Family - Cavies

CARROT

Length - 21cm

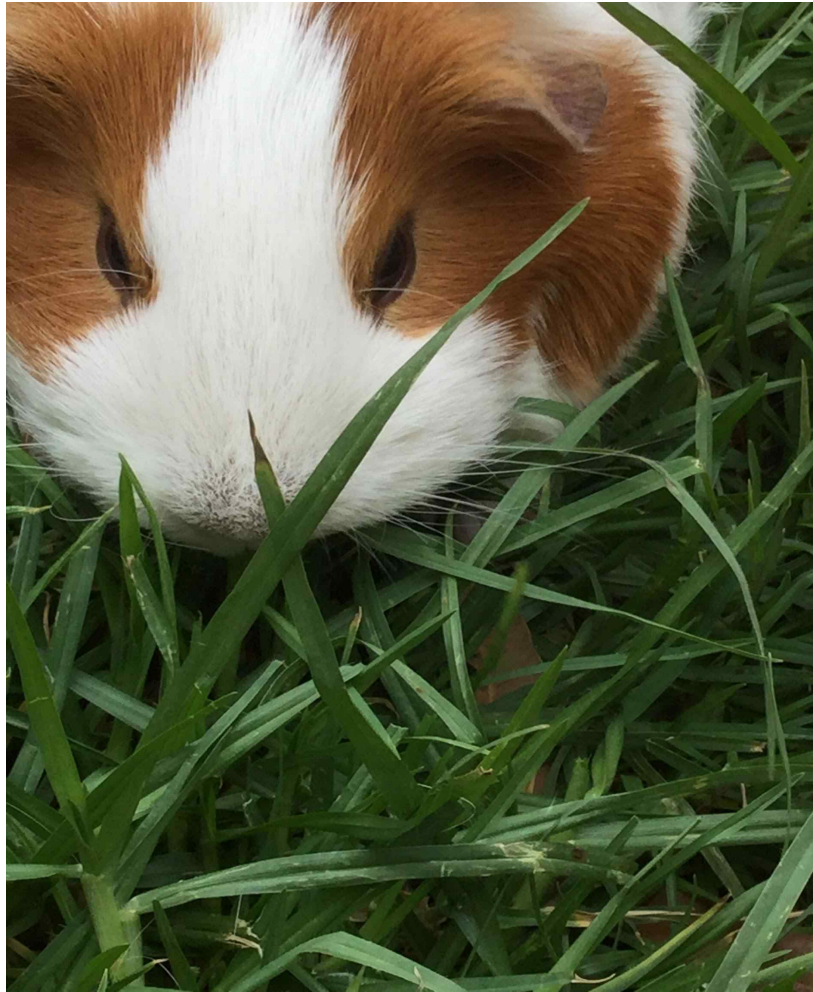

Colours - White and Ginger

Gender - Female

Diet - Grass and Alpha Mix

Species - Guinea Pig or
Cavia porcellus

Family - Cavies

VEGAS

Length - 22cm

Colours - Brown and Caramel

Gender - Unspecified

Diet- Grass and Alpha Mix

Species - Guinea pig or
Cavia porcellus

Family - Cavies

CARAMEL

Length - 25cm

Colour - Ginger and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Guinea Pig or
Cavia porcellus

Family - Cavies

PLUTO

Length - 28cm

Colour - Grey and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Rabbit or
Oryctolagus cuniculus

Family - Leporidae

GALAXY

Length - 28cm

Colour - Grey and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Rabbit or
Oryctolagus cuniculus

Family - Leporidae

CASSIE

Length - 26cm

Colour - Grey and White

Gender - Female

Diet - Grass and Alpha Mix

Species - Rabbit or
Oryctolagus cuniculus

Family - Leporidae

HOW GUINEA PIGS AND RABBITS HELP OUR GARDEN

Guinea pigs and rabbits help our ecosystem by eating the unwanted weeds and grass in our Garden. They provide a learning experience for the younger children by teaching them about growth and basic care of animals. Their manure can be used as fertiliser or in the composting process.

THANK YOU FOR READING

HOPE YOU ENJOYED THE SLIDE
